OFFICE OF GEOGRAPHIC INFORMATION SYSTEMS

GIS Internship Available

Union County seeks a GIS (Geographical Information Systems) intern to assist with ongoing projects. The intern will play a key role on projects that include community development, updating land use and zoning layers, tax parcel mapping, and updating recreation datasets including a rail trail. Responsibilities include data capture and attribution, digitizing, designing draft and final map products and various other GIS related tasks.

Experience with ArcGIS is required; MS Office, Adobe Photoshop and other ESRI software experience are a plus.

Successful intern candidates will be pursuing a BS/MS in Geography, Computer Science or another related field with coursework in GIS and have sophomore status or higher. This position requires the ability to work well in a team setting as well as independently and have excellent communication skills.
