B. Pine Valley Sewage Treatment Plant Waiver Request

They are building a new sewage treatment plant and replacing the existing one. They are requesting a waiver from Subdivision and Land Development requirements. Shawn spoke with Attorney Hoffman and he feels that as long as they are removing what is there and not increasing the impervious coverage and not changing the plan in any major way that a waiver would be warranted so long as they meet those conditions.

There was a motion by Greg Prowant to grant the waiver. Second by Alan Zeigler.
Motion carried.

V. Correspondence and Information:

None

V. Director's Report:

Mr. McLaughlin reported he attended the County Trail Authority Board meeting; continued activities on administering the county COVID 19 Block Grant funds; site visits on Bridge 13 in Mifflinburg with the land owners; spent significant time on bridge projects; working on Annual Report; doing a lot of Zoom meetings. Shawn feels it may be a good time to look at our subdivision and land development fees as it has been a number of years since this has been done. Also, there continues to be on-going problems with the Stormwater Management Facilities for Dollar General in Hartleton Borough. They need to make some repairs as it is not working as designed by the engineers but it got to be too late in the year for construction so this will be corrected in the spring.
